Dani Vorobiev

Frontend Software Engineer · eCommerce & AI

voro@voro.blog · linkedin.com/in/daniilvorobiev · Barcelona, Spain

SKILLS

JavaScript, TypeScript, React, GraphQL, SCSS / CSS, Contentful, Playwright, Storybook, Optimizely, Sentry, Accessibility, Zod, Node.js, Git / CI-CD, Generative AI, RAG / LLMs, MCP

EDUCATION

La Salle BCN
Java Development
2025

Universitat de Barcelona
B.A. Philosophy
2013 – 2017

Universitat Autònoma de Barcelona
B.A. Musicology
2011 – 2015

CERTIFICATIONS

- Advanced LLMs with RAG
- Complete Intro to MCP
- Deep JavaScript Foundations v3
- Cisco Intro to Cybersecurity

LANGUAGES

Spanish	Native
Catalan	Native
Russian	Native
English	Professional
German	Elementary

Frontend developer and full-stack explorer with 3+ years building high-conversion eCommerce experiences at scale. Passionate about clean architecture, developer experience, and applying AI to real-world problems. Forever learning and happiest when building something cool.

EXPERIENCE

Software Engineer E2
Dec 2025 – Present

Ocado Technology · Barcelona

- Drove A/B experimentation on critical customer journeys using Optimizely, improving conversion across the eCommerce platform.
- Spearheaded Contentful CMS integration — led the technical spike, built all frontend parts (GraphQL, Contentful Apps), and created documentation adopted by multiple teams.
- Implemented Sentry-to-Slack alerting and improved logging strategy, significantly reducing time-to-detect for production errors.
- Expanded automated test coverage: integration, E2E (Playwright), and visual regression (Storybook).
- Led accessibility improvements aligning the platform with the European Accessibility Act (EAA/WCAG).

Software Engineer E1
Oct 2023 – Dec 2025

Ocado Technology · Barcelona

- Built and improved subscription and Delivery Pass features for the webshop using React and TypeScript in an agile workflow.
- Standardised Zod schema validation across the frontend, improving data integrity and enabling early error detection.
- Automated the translation sync pipeline, eliminating manual steps and preventing missed translations in production.
- Mentored new engineers and interns; presented key features at Barcelona Town Hall and Ecom Demo sessions.

Technology Intern
Jun 2023 – Oct 2023

Ocado Technology · Barcelona

Completed an immersive 15-week software engineering training programme, transitioning directly into a full engineering role.

Teacher
2017 – 2023

Colegio Sil Sarrià · Barcelona

Taught languages and humanities subjects. Developed strong communication, empathy, and the ability to explain complex concepts clearly — skills that continue to inform mentoring and knowledge-sharing as an engineer.

Teacher
2013 – 2017

Catalunya Refer Academia d'idiomes · Sitges

Languages instructor at a private language academy, teaching Spanish, Catalan, and English to students of all levels.
